PROFILE

I am an IT final year student whose passion is about developing software's that can solve real world problems. My primary objective is to apply my knowledge of Java and web technologies while gaining an industrial experience and contributing to real world software development projects.

EDUCATION

Dangwana S.S.S

- National Senior Certificate
- Jan 2022

Cape Peninsula University of Technology

- Higher Certificate in ICT
- Jan 2024

Cape Peninsula University of Technology

- Diploma in ICT APPDEV
- Jan 2024 - Present

EXPERIENCE

VOLUNTEER EXPERIENCE

Montelo Solar | Jun 2025 – Nov 2025 | Front End Student Developer

- Montelo is an upcoming e-commerce business that bridges the gap between solar suppliers, installers and customers. My role in this project is to design the client-side of the website while focusing on visually appealing and functional user interface and ensuring a smooth user experience.

ACADEMIC EXPERIENCE/PROJECTS

Application Tracking System | Feb 2025 – Nov 2025 | Full – Stack Student Developer

- ATS is a java application that was designed to help students search for courses that they qualify for before applying to minimize chances of being rejected. My role in this project was to design two screens in the app and combine all screens from other teammates into one app and connect it to the database.
